Institute: Y.B. Patil Polytechnic, Akurdi, Pune
Task Title: Creating a Personal Portfolio

Objective:

To design and develop a professional personal portfolio showcasing academic achievements, skills, projects, and goals using Figma as a design tool.

Tasks Completed:

Sr. No.	Task Description	Tool/Platform Used	Status
1	Collected personal details and academic records	Google Docs	Completed
2	Defined the objective, vision, and mission	MS Word / Notes	Completed
3	Planned portfolio layout (sections/pages)	Figma	Completed
4	Designed Home, About, Skills, Projects, Contact	Figma	Completed
5	Added hobbies, percentage, and personal intro	Figma	Completed
6	Reviewed and revised design for improvements	Figma	Completed
7	Prepared final presentation layout	Figma	In Progress

Portfolio Highlights:

- **Name:** Sneha Shekhar Kalyankar
- **DOB:** 25 March 2005
- **Course:** Diploma in Computer Engineering (3rd Year)
- **10th Percentage:** 94.80%
- **Last Semester Score:** 87.41%

- **Hobby:** Exploring new things every day
- **Vision:** To become a skilled and innovative software developer
- **Mission:** To apply technical skills and creativity to solve real-world problems

---

Next Steps:

- Export the Figma design to web-compatible format
- Publish the portfolio using GitHub Pages or any hosting service
- Share the portfolio link in resume or job/internship applications

Conclusion:

The portfolio design task provided hands-on experience in using Figma and helped organize academic and personal achievements into a professional format suitable for future opportunities.

Introduction
